PROFESSIONAL SUMMARY

Computer Science Engineering graduate (CGPA: 8.4/10, 2026) with hands-on internship experience as a Full Stack Java Developer at CampusPe Technologies, Mysore, where I built and shipped production-grade features using Java, Spring Boot, React, and MySQL within agile sprint cycles. Skilled in REST API design, real-time GitHub collaboration, and end-to-end web application delivery. Live projects available on portfolio. Seeking a Full-Time Software Developer or Backend Developer role to contribute and grow as an engineer.

INTERNSHIP EXPERIENCE

Full Stack Java Developer Intern | *CampusPe Technologies, Bengaluru*

Jan 2026 – Apr 2026

- **Production GitHub collaboration:** Pushed code via pull requests to the company's live private repository; participated in code reviews and feature branch management on a real-world student-facing campus platform.
- **End-to-end feature delivery:** Developed full stack modules using Java Spring Boot (REST APIs) and React; designed MySQL schemas and implemented business logic that served real end-users.
- **Agile execution:** Operated within sprint cycles with daily standups, sprint planning, and peer code reviews — consistently shipped tested, reviewed features on tight deadlines.

PROJECTS

Human Health Score Calculator [View on GitHub →](#) | Java • Spring Boot • React • REST APIs • MySQL • Token Auth

- Architected a full stack health assessment app where users input BMI, blood pressure, activity level, and diet to receive a personalized real-time health score via a **custom weighted Spring Boot REST API algorithm**.
- Built an interactive React dashboard with score gauges and health recommendations; secured all endpoints with **token-based authentication**; persisted user history and trends in MySQL.
- Managed full project lifecycle on GitHub (branching, PRs, commits); source code at github.com/mvyashwanth.

AI-Powered HR Resume Analyzer & Candidate Screening System [View on GitHub →](#) | Python • Flask • HTML5 • CSS3

- Developed an AI-powered recruitment platform that automates resume screening, candidate ranking, interview scheduling, and recruitment workflow management
- The application analyzes resumes against job descriptions using Machine Learning techniques to help HR teams identify the best candidates efficiently.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, HTML5, CSS3.
Web Frameworks	Spring Boot, REST APIs, Tailwind CSS.
Libraries	TensorFlow, Keras, OpenCV, React
Databases	MySQL, PostgreSQL
Tools	Git, GitHub, Postman, VS Code, Vercel, Netlify.
Concepts	OOP's, DSA, DBMS, Full Stack Development, REST Architecture, ML, CNN / Deep Learning.

EDUCATION

B.E. Computer Science Engineering: • Bahubali College of Engineering, Shravanabelagola CGPA: 8.4/10

Pre-University (PCMB): • RKVK College, Mysore

Score: 79.9%

CERTIFICATIONS

- Full Stack Java Developer Certificate — CampusPe Technologies (Internship Completion, Apr 2026)
- Java Full Stack Developer Certification
- Java Programming Certification

LANGUAGES & SOFT SKILLS

Spoken: Kannada (Native) • English (C1 – Advanced) • Hindi (B1 – Intermediate)

Soft Skills: Problem Solving • Team Collaboration • Code Review • Communication • Hard Worker and Quick Learner
